"Does Race Affect Access to Government Services?: An Experiment Exploring Street Level Bureaucrats and Access to Public Housing"

Katherine Levine Einstein and David M. Glick

American Journal of Political Science

Variable Name *Variable Label*

(notes below variable names)

NumberAssignment *Number Assignment*

NumberAssignment:
1. Randomly assigned number 1-6 that corresponds to the treatment names (Brett, Emily etc.). Variable labels includes these names.

1 Tyrone
2 Shanice
3 Santiago
4 Gabriela

5 Brett
6 Emily

TreatmentGroup *Treatment Group*

TreatmentGroup:
1. Indicates the race/ethnicity and gender associated with the NumberAssignment (e.g. Brett = "white male"). This variable is primarily just for informational purposes and completeness. It is redundant with the NumberAssignment variable.

Response_Dichotomous *Did the email receive a response?*

Response_Dichotomous:
1. One of the dependent variables -- coded based on the email responses.
2. Coded 1 if email received a response from housing official. 0 if no response. Missing if email bounced back
due to email issue.

WaitListFinal *Information About Waitlist (cleaned up)*

WaitListFinal:
1. Variable coded based on information respondent provided in response to the question about waitlist times in
the email.
2. Numbers are wait times in months (often we converted e.g. "two years" to "24." "NA" means respondent provided
no information.
3. Other entries (e.g. "closed") are brief descriptions of other things they said .

ProperName *Proper Name*

ProperName:

1. Variable coded 1 if email response began with any sort of named greeting (e.g. "hello Emily," "Emily," or
"Dear Emily" (see paper for elaboration on this important variable)
2. Only available for observations in which an email was returned.

Respond24 *If response came, did it come within 24 hours?*

HardEmail *Hard to find email address*

HardEmail:
1. Coded 1 for housing authorities for which finding an internet contact was difficult. In these cases we had to use the Department of Housing and Urban Development's list of Housing Authorities with contact information.
2. Coded 0 for housing authorities for which we could quickly identify a contact email on their web page or which provide an online contact form.

HispanicEmailer *Respondent had Hispanic name*

HispanicEmailer:
1. Coded 1 if the name of the official that responded to the email was distinctively Hispanic. Only available for observations in which there was a response. Described at length in the paper

white_pop_third *Third PercentWhite*

white_pop_third:
1. Indicates whether community is in the top, middle, or bottom third of all cities in the study on the percent white population variable (from 2012 ACS)

black_pop_third *Third PercentBlack*

black_pop_third:

1. Indicates whether community is in the top, middle, or bottom third of all cities in the study on the percent black population variable (from 2012 ACS)

hispanic_pop_third *Third PercentHispanic*

hispanic_pop_third:
1. Indicates whether community is in the top, middle, or bottom third of all cities in the study on the percent Hispanic population variable (from 2012 ACS)

total_pop_third *Third TotalPopulation*

total_pop_third:
1. Indicates whether community is in the top, middle, or bottom third of all cities in the study on the total population variable (from 2012 ACS)

poverty_pop_third *Third PovertyRate*

poverty_pop_third:
1.Indicates whether community is in the top, middle, or bottom third of all cities in the study on the poverty rate variable (from 2012 ACS)

assesment_third *Third AssesmentScore*

assesment_third:
1. Indicates whether housing authority was in the top, middle, or bottom third of the HUD Assesment Score variable.
2. Scores not available for all observations
